

TWIN DAS

COMPUTER SCIENCE & ENGINEERING GRADUATE | DATA SCIENCE | WEB DEVELOPMENT

twindas2003@gmail.com | +91 62908 82018 | West Bengal, India

PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with a specialization in Data Science and a strong foundation in Python, SQL, web development, data analytics and database technologies. Hands-on experience through academic and personal projects using Python, Django, HTML, CSS, JavaScript and Power BI. Completed industrial training in web development with exposure to professional development workflows. Seeking an entry-level opportunity in software development, Python development, web development or data analytics where I can contribute, learn and grow.

TECHNICAL SKILLS

Programming: Python, Java, C, JavaScript

Web Development: HTML, CSS, JavaScript, Django

Data & Analytics: SQL, Power BI, Pandas, NumPy, Matplotlib

Data Science: Machine Learning, Scikit-learn

Database: SQL Databases, Database Management

Tools: Git, GitHub, VS Code

Design: Figma, Canva, UI Design

EDUCATION

B.Tech — Computer Science & Engineering

Brainware University | Specialization: Data Science | **9.05 CGPA / 10** | 2025

Relevant areas: Programming, Databases, Web Development, Data Analytics and Data Science.

Higher Secondary Education — 75%

Secondary Education — 70%

INDUSTRIAL TRAINING

Web Development Training — WebGuru Infosystems Pvt. Ltd.

- Gained practical exposure to professional web development workflows.
- Worked with frontend and backend web technologies and responsive website development.
- Developed understanding of real-world development practices and project workflows.

SELECTED PROJECTS

01. Kordiva — Web Development Project

Technologies: HTML, CSS, JavaScript

- Developed a modern web-based platform with a clean and responsive user interface.
- Worked on website structure, navigation, responsive layouts and interactive frontend components.

02. Personal Portfolio Website

Technologies: HTML, CSS, JavaScript

- Designed and developed a responsive portfolio website to showcase skills, projects, education and professional journey.
- Implemented responsive design and interactive frontend elements.

03. Data Dashboard

Technologies: Python, SQL, Power BI

- Developed an interactive dashboard for data visualization and insight generation.
- Used data processing, SQL and Power BI to present information clearly.

04. Student Test Portal

Technologies: Python, Django, SQL

- Developed a web-based platform for online assessments.
- Implemented backend functionality using Python and Django and managed application data with SQL.

05. Face Identification System

Technologies: Python, OpenCV, Machine Learning

- Developed a computer-vision project exploring face detection and identification techniques.

- Used Python and OpenCV for image processing and computer vision tasks.

06. API Agent

Technologies: Python, API, AI

- Developed an experimental project exploring API integration and agent-based interaction.
- Worked with external services through API-based communication.

CORE STRENGTHS

Problem Solving | Analytical Thinking | Quick Learning | Adaptability | Team Collaboration | Attention to Detail | Continuous Learning

CAREER INTERESTS

Software Development, Python Development, Web Development, Data Analytics, Data Science, Backend Development
